

REPLACEMENT OPERATIONS

ARNG Replacement Strategy

- NGB Ceased the Predictive Model, “PUSH” Program; Replaced with “PULL” Program via the State JFHQ Rear Det.
- Step 1: Deployed Commanders request replacements from parent State JFHQ
- Step 2: JFHQ-ST verifies that the vacant position is authorized for fill by the MTOE or DMD and that the unit is below 100% Mission Required Strength.
 - Step 2a: If No, JFHQ-ST denies request and notifies commander.
 - Step 2b: If Yes, JFHQ-ST provides Replacement Info to NGB-ARH and/or requests assist from NGB-ARH, as appropriate.
- Step 3: NGB-ARH forwards the request to the Theater NGB-ARNG LNO for validation
- Step 4: Theater LNO validates request:
 - Step 4a: If denied - LNO notifies NGB-ARH who then relays denial to JFHQ-ST
 - Step 4b: If approved - LNO notifies NGB-ARH; NGB-ARH authorizes JFHQ-ST to send Soldier to IRMTC, or
 - Step 4c: If approved, but JFHQ-ST lacks qualified Soldier - NGB-ARH sends a volunteer or IRR Soldier to IRMTC

MAN A READY FORCE
